

# To Use Our Automated Telephone System

User-friendly,  
reliable,  
and  
convenient

Call  
603-436-5110  
or  
1-800-685-8282

When you call Portsmouth Regional Hospital, you'll reach our voice-activated telephone system.

This service allows callers to reach specific departments or patient rooms faster than conventional operator-assisted calls.

*Here are some tips for using our system.*

**If you know your party's extension:**  
dial the four digit extension of the person or department you wish to reach.

**If you don't know your party's extension:**  
say the party's name, when prompted.

**If you want to speak with a patient:**  
say the room and bed number or dial "O"  
for the operator.

**At any time you can bypass the system and reach a live operator:  
press "O" or say "Operator."**

As always, if you are experiencing a medical emergency,  
we encourage you to immediately call 911.

333 Borthwick Avenue, Portsmouth, NH 03801 (603) 436-5110 **1-800-685-8282**
